

'God Space' - What is God space?
Rick Concoff, August 2011

God Space is an energy you can sign on to spiritually. You are either in it or you are not. Your password is in your heart. In God Space you will find inquiry, self-realization, peace, tranquility, tikun olam (repair of the world), justice, equality, equanimity, self-care, self-love, spirit, soul and truth. When you sign-on to God Space, you and those around you go to their higher beings and their behavior reflects it. They think before they act and speak, with kavanah (mindful intention) heartfelt prayer and blessing happen in God Space, and when appropriate, miracles too! In God Space music, art, dance, poetry, prose and nature speak so loudly, it is difficult if not impossible to hear antipathy, negativity, hatred, fear and doubt.

- There are often updates

God space is unlike cyberspace in other ways-

- It doesn't cost anything
- You can access it from anywhere anytime
- It doesn't need towers
- There are no radio waves
